1. Group Formation
   - Each group must select 5 members to participate.
   - The 5 members will form a straight line.

2. Game Proper
   - The first member of each group will be given a balloon.
   - The balloon must be passed from underneath (between the legs) to the next member behind them.
   - Players must continue passing the balloon until it reaches the last member of the line.
   - Once the last member receives the balloon, he/she must immediately shout their assigned group word.

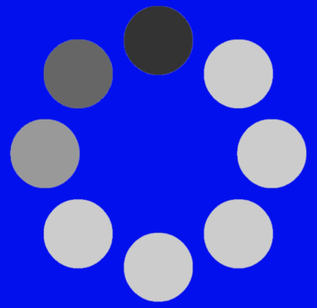

3. Group Words
   - Group 1: GIRLY
   - Group 2: PETER
   - Group 3: MARK
   - Group 5: PANYING
   -

(The assigned word will help identify which group answered first.)

4. Question Round
   - After the last member shouts the group word, the facilitator will recognize the first group who successfully called out.
   - The first group to shout will have the chance to answer the question.
   - If the answer is correct, the group will earn 1 point.
   - If the answer is incorrect, the facilitator may allow other groups to answer.

5. Winning Condition
   - A total of 5 questions will be flashed on the screen.
   - Each correct answer is equivalent to 1 point.
   - The group with the highest score after all questions will receive prizes

GOOGLE MEET

Google Meet is a **video conferencing** and **online communication** platform developed by Google. It allows users to conduct virtual meetings, online classes, presentations, interviews, and group discussions through video and audio using a computer, tablet, or smartphone.

It is mainly used for **real-time** virtual communication and collaboration, with features such as video calls, screen sharing, chat, captions, recording, and integration with other Google services.

GOOGLE FORMS

What is Google Forms?

A free, web-based app in Google Workspace for building surveys, quizzes, registrations, and feedback forms, and for collecting responses in real time.

- Runs in any web browser, no installation
- Forms save automatically to Google Drive
- Responses are collected and organized for you

Purposes:

- Collect information: surveys, sign-ups, feedback, orders
- Assess learning: self-grading quizzes with answer keys
- Organize data: responses flow into charts and Google Sheets

Meet

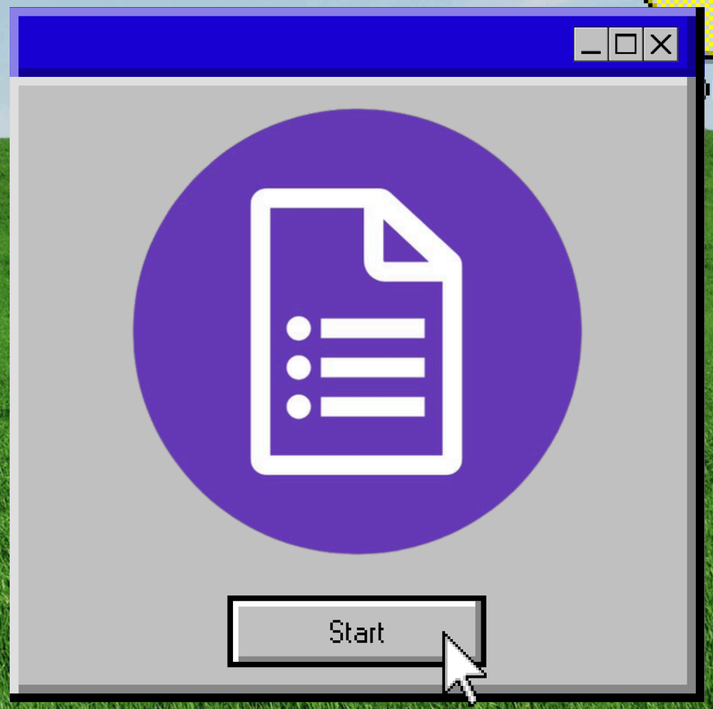

Start

File Edit View Help

GOOGLE FORMS

Key features

- Templates & themes: start from a template; customize color, header image, and font
- Many question types: from short answer to linear scales and file upload
- Sections & logic: split long forms and branch by the respondent's answer
- Real-time responses: see answers and charts update as people submit
- Collaboration: add collaborators so a team can edit the same form
- Quiz mode: add answer keys, points, and feedback for auto-grading

Meet

Start

GOOGLE FORMS

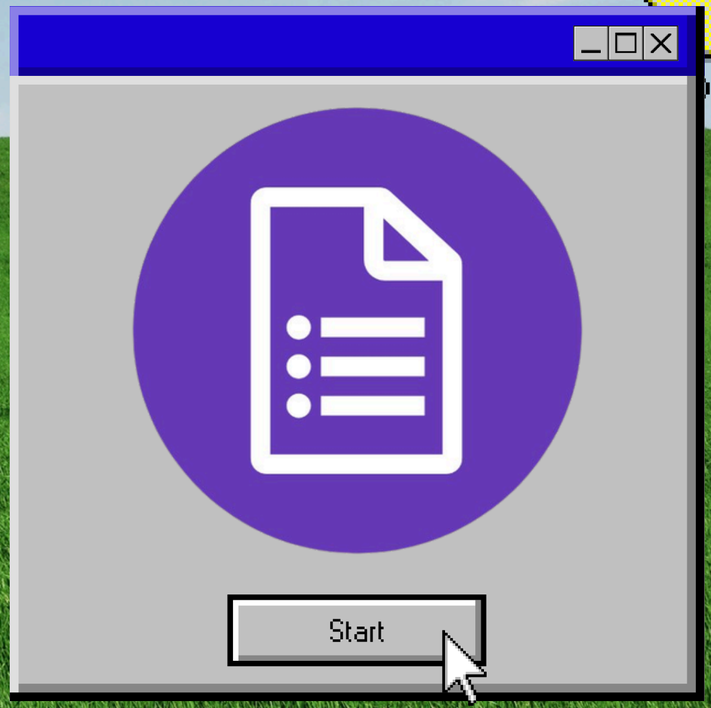

Meet

rms

Question types

- Short answer: name, email, one-word reply
- Paragraph: comments, long explanations
- Multiple choice: pick exactly one option
- Checkboxes: pick one or more options
- Dropdown: choose from a compact list
- Linear scale: rate from 1 to 5 or 1 to 10
- Date & time: pick a date or a time
- File upload: send a file to your Drive

Any question can be marked Required.

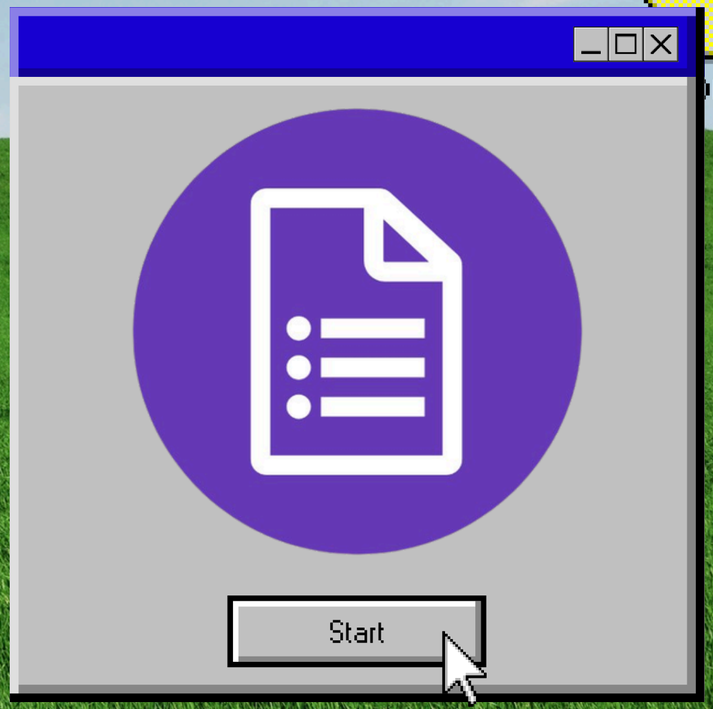

Start

GOOGLE FORMS

How Google Forms works

1. Create: start from a blank form or a template and add questions
2. Customize: set the theme, sections, required fields, and settings
3. Share: send by email or link, or embed it in a website
4. Analyze: review charts, individual answers, or open in Sheets

Everything happens in the cloud, and changes save automatically.

GOOGLE FORMS

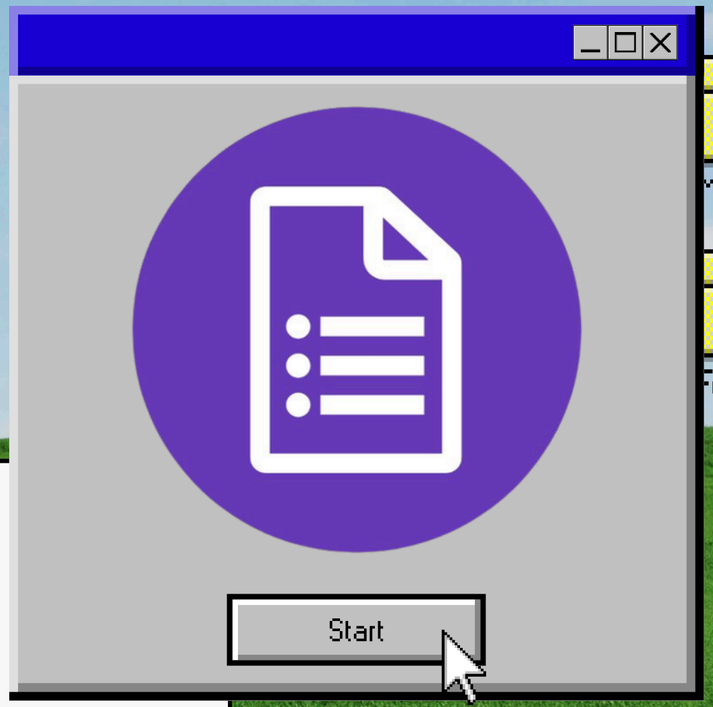

Important settings

Form settings

- Collect email addresses: record who responded
- Send a copy: respondents get their answers
- Allow response editing: fix answers after submitting
- Limit to 1 response: requires sign-in
- Presentation: progress bar, shuffle questions, confirmation message

Quiz settings

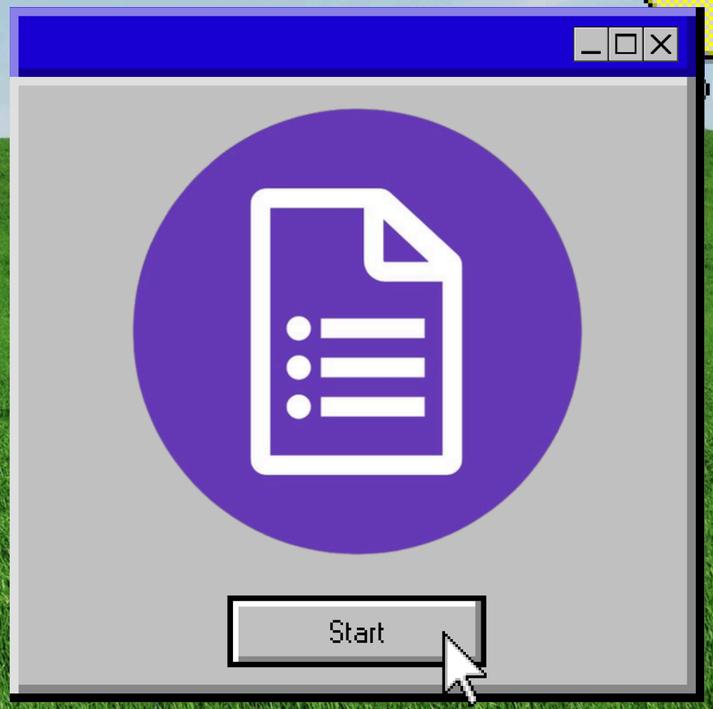

- Make this a quiz: turn on grading
- Answer key: mark correct answers and assign points
- Feedback: add notes for right and wrong answers
- Release grades: right after submission or after review
- Respondent can see: missed questions, correct answers, points

GOOGLE FORMS

Viewing and analyzing responses

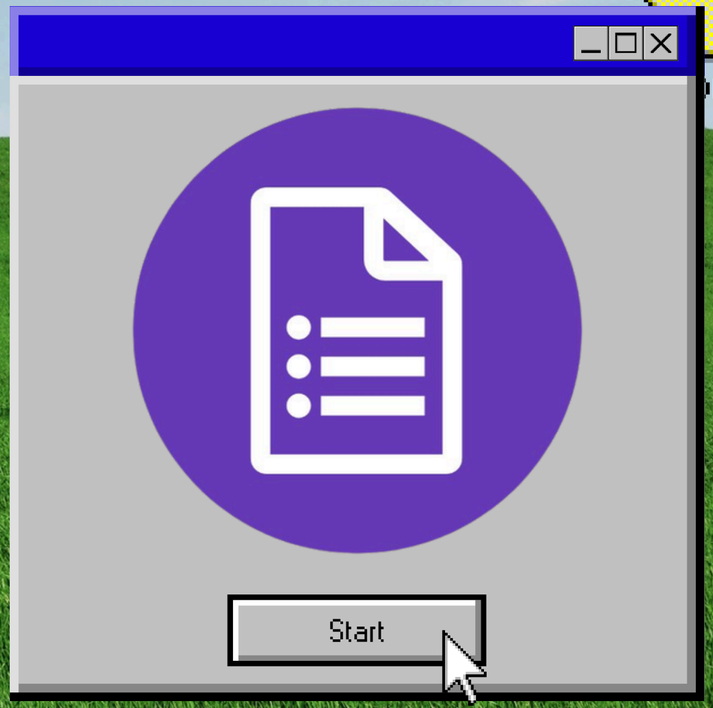

- Summary: automatic charts and totals for every question
- Question: review the answers to one question at a time
- Individual: browse each person's complete submission
- Link to Sheets: open live data as a spreadsheet
- Download .csv: export responses to keep or share
- Accepting responses: toggle on or off to close the form

GOOGLE FORMS

Where Google Forms is used

- Education: quizzes and exams, attendance, assignment submission, student feedback
- Business: customer surveys, order forms, job applications, employee feedback
- Events: RSVPs, registrations, volunteer sign-ups, meal or schedule polls
- Organizations & personal: club membership, research surveys, contact info, class reunions

GOOGLE FORMS

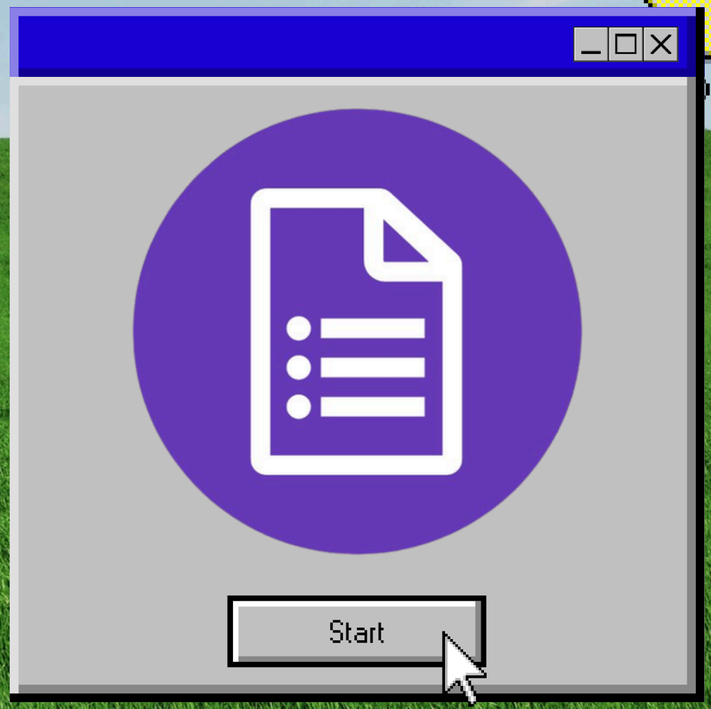

Strengths and limitations

Strengths

- Free with a Google account and easy to learn
- Responses arrive in real time and sync to Sheets
- Automatic grading for quizzes
- Works on phones, tablets, and computers
- Easy sharing and collaboration

Limitations

- Limited design and layout control
- Basic built-in analysis (deeper work needs Sheets)
- Some options require respondents to sign in
- No fully custom branding
- Best for simple to medium forms

GOOGLE FORMS

Meet

Forms

Live demonstration: Let's build a form together

1. Open: forms.google.com
2. Build: title, questions, theme
3. Quiz: settings and answer key
4. Share: preview, then Send
5. Analyze: responses and Sheets

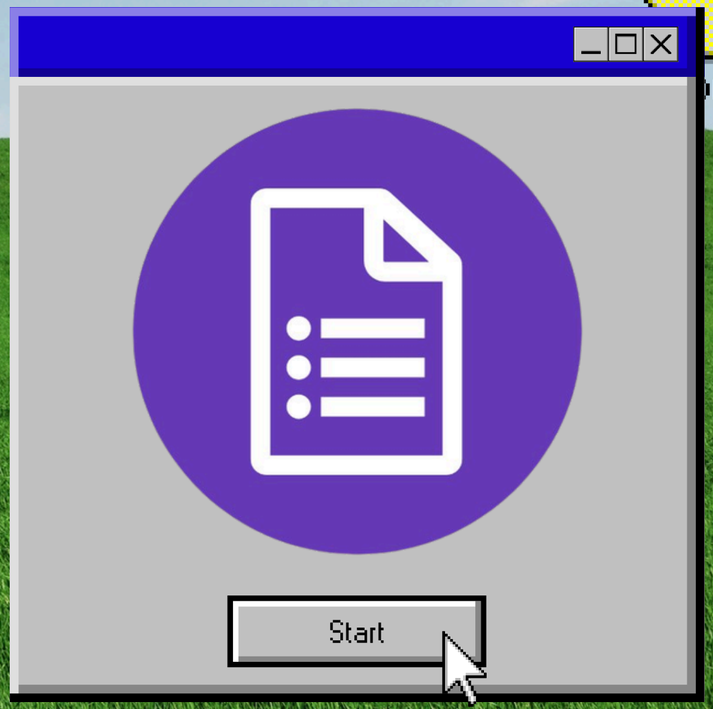

Start

GOOGLE FORMS

Demo Part 1:

Create a form:

1. Go to forms.google.com and sign in with a Google account.
2. Click Blank form, or pick a template from the gallery.
3. Type the form title and description.
4. Click + (Add question), choose a type, and switch on Required.
5. Click the palette icon to change the theme color, header image, and font.

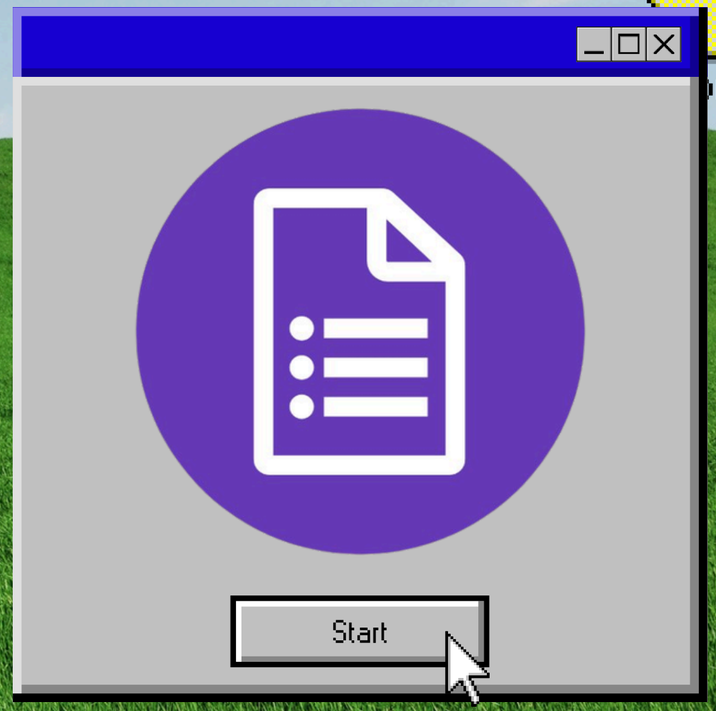

File Edit View Help

GOOGLE FORMS

Demo Part 2: Quiz, settings, and sharing

1. Open Settings (gear icon), go to Quizzes, and turn on Make this a quiz.
2. On a question, click Answer key, pick the correct answer, and set points.
3. In Settings, open Responses and choose Collect email addresses.
4. Click Preview (eye icon) to test the form as a respondent.
5. Click Send: share by email, link, or embed. Add collaborators from the three-dot menu.

Meet

Start

File Edit View Help

GOOGLE FORMS

Meet

Demo Part 3: View and analyze responses

1. Open the form and click the Responses tab.
2. Summary: show the automatic charts and totals.
3. Question and Individual: show the two other views.
4. Click Link to Sheets to open the live data in Google Sheets.
5. Turn off Accepting responses to close the form.

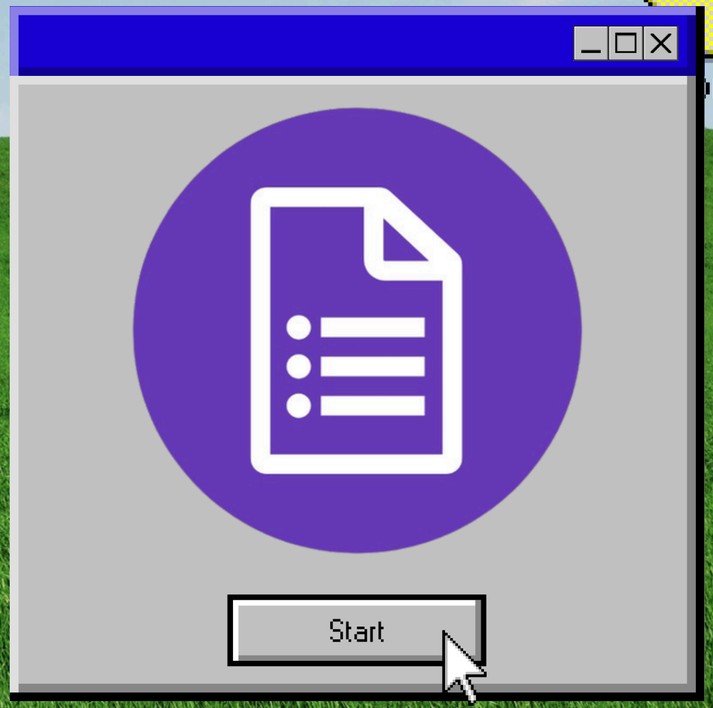

Start

GOOGLE FORMS

Key takeaways

- Purpose: a free, cloud-based tool for surveys, quizzes, and forms
- Features: many question types, sections, themes, quiz mode, collaboration
- Uses: classrooms, businesses, events, and organizations
- Analysis: instant charts plus one-click Google Sheets integration
